Ookla is pleased to announce that Airtel is the winner of Speedtest by Ookla's Fastest Mobile Carrier Award in India. The award certifies that Airtel achieved the fastest mobile network speeds in India from consumer initiated speedtest results in Q3 and Q4 of 2016.

To determine Speedtest mobile award winners, we use test results from "modern devices" to aid in the analysis of a mobile user's typical speeds. "Modern devices" results include all mobile tests, regardless of connection technology used, as long as the test was taken on a device identified as being capable of achieving the fastest speeds available in a given country.

Speedtest is the definitive way to measure your internet performance. Speedtest has been actively used billions of times, making it the dominant global leader in internet performance testing and metrics.

#### Official Quote

"We are pleased to acknowledge Airtel as India's Fastest Mobile Network for 2016. This award recognizes Airtel's commitment to delivering fast speeds and a strong network to their customers across India." - Jamie Steven, COO at Speedtest by Ookla.
